Setup and instructions

Advania Dropp

1. Setup

Dropp Connection Setup must be configured to send and receive files to/from Dropp service. API key and Store ID need to be set, test service is enabled by default, but can be toggled if working in a production environment.

2. INSTRUCTIONS

Send Order to Dropp

Before sending a Sales Order to Dropp service, a barcode needs to be set up in Item Reference page for items being sent to the service.
